

LaKeysha Strickland

MBA, CSM, CSPO, AWS AI Practitioner

AI AUTOMATION ENGINEER | PYTHON | AWS | ENTERPRISE WORKFLOW AUTOMATION

St. Louis, MO | 314-307-4921 | keystrickland@charter.net | LinkedIn | GitHub

PROFESSIONAL SUMMARY

AI-focused automation engineer with 12+ years in enterprise operations, building production-ready tools with Python, Amazon Kiro, Bedrock, and Microsoft Power Platform. Architected an enterprise Deconfliction Dashboard preventing 10-19 outages daily and automated carrier maintenance workflows across 13+ providers, cutting manual processing from 15 minutes to under 2 minutes per ticket. AWS Certified AI Practitioner combining hands-on AI-assisted development with deep operational domain expertise.

CORE SKILLS

AI & AUTOMATION

Python | Amazon Kiro | Amazon Q | Amazon Bedrock | Claude Code | AI-Assisted Development | Outlook COM Automation | Regex | REST APIs | Workflow Automation | openpyxl

CLOUD & PLATFORMS

AWS | Azure | Power Apps | Power Automate | SharePoint | Microsoft Teams Webhooks | GitHub / GitHub Pages

OPERATIONS & DATA

Change Management | ITIL | Risk & Impact Analysis | SOP Development | Tableau | Excel | BMC Helix | Jira | Asana

PROFESSIONAL EXPERIENCE

Systems Engineer II - AI-Assisted Automation & Change Management

Mar 2026 - Present

Spectrum (Charter Communications) | St. Louis, MO

- Architected an enterprise Deconfliction Dashboard using Amazon Kiro and Power Apps that identifies maintenance conflicts before implementation, preventing 10-19 potential outages daily and saving 2-3 hours of manual research per shift.
- Engineered a Python-based carrier maintenance automation system using Outlook COM, regex parsing, and Teams webhooks that detects notifications from 13+ carriers and auto-generates CRQ records -- reducing processing time from ~15 minutes to under 2 minutes per ticket.
- Designed impact auto-determination logic that classifies maintenance severity by emergency status, subscriber count, and circuit count, then maps to carrier-specific assignee groups automatically.
- Built persistent tracking with duplicate detection and full ticket lifecycle management from email detection through CRQ creation and resolution.
- Leverage Amazon Q and Claude Code for rapid prototyping, code generation, testing, and documentation across all automation projects.
- Coordinate ~50 enterprise change tickets weekly and ~20 carrier tickets daily with zero administrative errors.
- Produced 10+ video guides and technical documentation resources adopted team-wide to accelerate tool adoption.

Change Control Analyst II

Mar 2019 - Mar 2026

Spectrum (Charter Communications) | St. Louis, MO

- Led analytic oversight of 1,000+ scheduled maintenance changes annually across a converged enterprise network serving millions of subscribers.
- Prepared weekly and monthly operational reporting and recommended process improvements that reduced repeat escalations.
- Authored training materials adopted across 7 engineering verticals, improving CRQ accuracy and reducing revision cycles.

Change Control Analyst

Jan 2017 - Mar 2019

Spectrum (Charter Communications) | St. Louis, MO

- Coordinated scheduled network maintenance while enforcing change policies protecting revenue-generating customers.
- Analyzed customer and service impacts, escalated conflicts, and supported carrier-class operating practices.

KEY PROJECTS

Enterprise Deconfliction Dashboard & Portal

Amazon Kiro, Power Apps, SharePoint, AI-Assisted Development

- Took the solution from concept through design, development, testing, and enterprise adoption; partnered with a colleague for SQL integration.
- Centralized maintenance visibility, eliminating hours of manual research daily and enabling data-driven go/no-go decisions on scheduled maintenance.

Third-Party Carrier Maintenance Automation

Python, Outlook COM (pywin32), Teams Webhooks, openpyxl, Amazon Kiro

- End-to-end workflow: mailbox monitoring, email parsing, Teams alerts, CRQ auto-generation, and persistent tracking with duplicate detection.
- Configurable regex patterns for ticket extraction across 13+ carrier formats; impact auto-determination logic for severity classification.

Phoenix Travel Digital Experiences

Amazon Kiro, GitHub Pages, HTML/CSS

- Built and deployed live customer-facing travel sites using AI-assisted development, managing source control and production publishing through GitHub Pages.

EDUCATION & CERTIFICATIONS

Master of Business Administration (MBA) | Louisiana State University | 2026

Bachelor of Science, Business Administration | Lindenwood University - Dean's List | 2021

- AWS Certified AI Practitioner
- Certified Scrum Product Owner (CSPO), Scrum Alliance, 2023
- Certified ScrumMaster (CSM), Scrum Alliance, 2022
- Project Management Certificate, NYU (Pathstream), 2024
- Six Sigma: Green Belt
- Six Sigma: Yellow Belt
- Scrum Fundamentals Certified (SFC)

AWARDS & LEADERSHIP

- Spectrum BEST Award - recognized for outstanding customer service performance.
- Deconfliction Dashboard adopted enterprise-wide within weeks of launch.
- Selected by a director for consideration for the WICT Women to Watch recognition.
- Active in NAMIC and WICT professional-development initiatives; Make-A-Wish volunteer.
