

LaKeysha Strickland

MBA, CSM, CSPO, AWS AI Practitioner

SOLUTIONS ENGINEER | TECHNICAL PRODUCT DELIVERY | CUSTOMER-FACING SYSTEMS

St. Louis, MO | 314-307-4921 | keystrickland@charter.net | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Solutions-oriented engineer with 12+ years translating complex technical requirements into production-ready tools and customer-facing digital experiences. Combines hands-on development (Python, Power Platform, AWS) with cross-functional stakeholder management across 20+ engineering teams. Proven ability to demo, design, and deliver solutions that prevent outages, automate workflows, and drive measurable adoption -- including an enterprise dashboard adopted company-wide within weeks of launch.

CORE SKILLS

SOLUTION DESIGN & DELIVERY

Technical Product Delivery | Requirements Gathering | Solution Architecture | Stakeholder Management | UAT | AI-Assisted Development | Technical Training | Demo & Presentation

DEVELOPMENT & PLATFORMS

Python | Amazon Kiro | Amazon Q | Power Apps | Power Automate | SharePoint | GitHub / GitHub Pages | REST APIs | AWS | Amazon Bedrock | Azure

OPERATIONS & PROCESS

Change Management | ITIL | Agile / Scrum | Risk & Impact Analysis | SOP Development | BMC Helix | Jira | Asana | Tableau

PROFESSIONAL EXPERIENCE

Systems Engineer II - Solution Design & Automation

Mar 2026 - Present

Spectrum (Charter Communications) | St. Louis, MO

- Identified a critical operational gap, designed a solution, and delivered an enterprise Deconfliction Dashboard using Amazon Kiro and Power Apps -- adopted company-wide within weeks, preventing 10-19 potential outages daily.
- Gathered requirements from 20+ engineering teams, translated them into technical specifications, and built automation tools that eliminated manual workflows and reduced ticket processing from 15 minutes to under 2 minutes.
- Serve as technical liaison between Change Management and engineering teams nationwide, validating impacts, demonstrating tools, and driving adoption of new processes.
- Produced 10+ training videos and documentation resources, onboarding new users and ensuring consistent tool adoption across the organization.
- Coordinate ~50 enterprise change tickets weekly and ~20 carrier tickets daily with zero administrative errors, acting as the team's subject matter expert on carrier processes.
- Represent the team in cloud-related meetings, communicate technical updates to non-technical stakeholders, and translate business needs into actionable automation.

Change Control Analyst II

Mar 2019 - Mar 2026

Spectrum (Charter Communications) | St. Louis, MO

- Served as primary point of contact for third-party carrier maintenance, coordinating complex changes among engineering, operations, and external providers with zero missed SLA windows.
- Led analytic oversight of 1,000+ maintenance changes annually, presenting findings to leadership and recommending process improvements that reduced escalations.
- Authored documentation and training materials adopted across 7 verticals, becoming the go-to resource for change process questions.

Change Control Analyst / Internet & Voice Repair Technician

Jan 2014 - Mar 2019

Spectrum (Charter Communications) | St. Louis, MO

- Progressed from frontline customer support to change coordination, consistently delivering solutions that improved customer experience and earned the Spectrum BEST Award.
- Analyzed customer impacts, escalated conflicts, and supported carrier-class operating practices across enterprise maintenance activity.

KEY PROJECTS

Enterprise Deconfliction Dashboard & Portal

Amazon Kiro, Power Apps, SharePoint, AI-Assisted Development

- Owned the full solution lifecycle: problem identification, stakeholder interviews, design, build, UAT, launch, and ongoing enhancement.
- Delivered a self-service tool that gives 20+ teams instant visibility into maintenance conflicts, replacing a manual multi-step research process.

Third-Party Carrier Maintenance Automation

Python, Outlook COM, Teams Webhooks, openpyxl, Amazon Kiro

- Designed and delivered an automated notification system that gives the team real-time visibility into carrier work, eliminating manual inbox monitoring.
- Pre-fills CRQ records with impact classification, reducing handoff time and enabling faster response to provider maintenance.

Phoenix Travel Digital Experiences

Amazon Kiro, GitHub Pages, HTML/CSS

- Built and deployed customer-facing travel sites with interactive itineraries and payment summaries, demonstrating ability to deliver polished end-user experiences.

EDUCATION & CERTIFICATIONS

Master of Business Administration (MBA) | Louisiana State University | 2026

Bachelor of Science, Business Administration | Lindenwood University - Dean's List | 2021

- AWS Certified AI Practitioner
- Certified Scrum Product Owner (CSPO), Scrum Alliance, 2023
- Certified ScrumMaster (CSM), Scrum Alliance, 2022
- Project Management Certificate, NYU (Pathstream), 2024
- Six Sigma: Green Belt
- Six Sigma: Yellow Belt
- Scrum Fundamentals Certified (SFC)

AWARDS & LEADERSHIP

- Spectrum BEST Award - recognized for outstanding customer service performance.
- Deconfliction Dashboard adopted enterprise-wide within weeks of launch.
- Selected by a director for consideration for the WICT Women to Watch recognition.
- Active in NAMIC and WICT professional-development initiatives; Make-A-Wish volunteer.
