PROFESSIONAL EXPERIENCE

Systems Engineer II - Program Delivery & Automation

Mar 2026 - Present

Spectrum (Charter Communications) | St. Louis, MO

- Led the end-to-end delivery of an enterprise Deconfliction Dashboard -- from problem identification through stakeholder alignment, development, UAT, launch, and adoption -- now used daily by the Change Management team to prevent 10-19 potential outages.
- Drove the carrier maintenance automation initiative from concept to production, coordinating requirements, development, testing, and rollout across the team.
- Manage the coordination of ~50 enterprise change tickets weekly and ~20 carrier tickets daily across 20+ engineering and operations teams nationwide.
- Standardized 6 SOPs, reducing onboarding time for new analysts and improving first-pass accuracy across the department.
- Produced 10+ training resources and led knowledge-transfer sessions that accelerated adoption of new tools and processes team-wide.
- Represent the team in cloud-related program meetings, communicate status and roadmap to stakeholders, and align priorities with organizational objectives.

Change Control Analyst II - Process Governance & Coordination

Mar 2019 - Mar 2026

Spectrum (Charter Communications) | St. Louis, MO

- Oversaw governance for 1,000+ scheduled maintenance changes annually, ensuring compliance with ITIL practices and protecting a network serving millions of subscribers.
- Served as primary coordinator for third-party carrier maintenance, managing relationships with external providers and maintaining zero missed SLA windows.
- Prepared weekly/monthly executive reporting, analyzed trends, and recommended process improvements that reduced repeat escalations and strengthened reliability.
- Authored process documentation and training adopted across 7 engineering verticals, establishing consistent standards organization-wide.

Change Control Analyst / Internet & Voice Repair Technician

Jan 2014 - Mar 2019

Spectrum (Charter Communications) | St. Louis, MO

- Progressed through 3 roles in 5 years based on consistent delivery, process improvement contributions, and leadership recognition (Spectrum BEST Award).
- Coordinated network maintenance, enforced change policies, and analyzed impacts across enterprise services.

KEY PROJECTS

Enterprise Deconfliction Dashboard & Portal

Amazon Kiro, Power Apps, SharePoint, AI-Assisted Development

- Owned full program lifecycle: stakeholder alignment, requirements, design, development, UAT, launch, and continuous improvement.
- Delivered on-time with enterprise-wide adoption within weeks, now a daily-use decision tool for the Change Management team.

Third-Party Carrier Maintenance Automation

Python, Outlook COM, Teams Webhooks, openpyxl, Amazon Kiro

- Drove initiative from concept through production rollout, eliminating a manual process and cutting per-ticket effort by 85%.
- Coordinated requirements, built the solution, and managed adoption across the carrier coordination team.

SOP Standardization Program

SharePoint, Technical Documentation, Process Design

- Led the rewrite of 6 SOPs across engineering workflows, aligning execution requirements and reducing onboarding friction for new analysts.
